

# GENERATION.NEXT

*Skills that last a lifetime*

Today, the world is more complex, competitive and demanding than ever before. Young people often need to balance school, work and relationships while, at the same time, work and plan for their future. The result can be increased pressure and stress.

GENERATION.NEXT™ is designed to prepare young adults (13-18) for the real world. It gives them the skills they need to reach their goals and live up to their full potential - at school, home and work.

GENERATION.NEXT™ graduates tell us that their new skills have helped them:

- Become more self-confident
- Identify and keep focus on their visions
- Make better decisions when faced with difficult choices
- Confront challenges in a positive manner
- Be better prepared when applying to college and when interviewing for jobs
- Become more effective communicators with peers, parents and their school
- Eligible for college credit\*
